Project Team: Mr. Robert E. Bruggink, P.E., Project Manager
Mr. Steven C. Groenenboom, P.E., Project Engineer
Mr. William G. Kozak, P.E., Project Engineer

Project Description: Development of entire storm sewer system and storm water treatment system for the East Campus of Calvin College, Grand Rapids. The project encompassed three different drainage districts, first flush storm water treatment, extended detention times, and reduced discharge rates in order to protect a downstream ecosystem owned and cared for by the College. The project straddled two municipalities requiring different design standards and submittal procedures.
