

Name of Project: **Coit / Franklin Schools Improvements**

Owner: Grand Rapids Public Schools

Contact Person Name/Phone: Mr. Mike Didier, Manager,
Construction and Renovation
(616) 819-3034

Location of Project: City of Grand Rapids,
Kent County, Michigan

Date Started/Completed:

Coit : 9/01 - 12/02

Franklin: 9/01 - 9/02

Project Team:

Joseph D. Camp, P.E.,
Project Manager

Project Description:

Moore & Bruggink provided site engineering for these two turn key school improvements projects in partnership with the architectural firm, Design Plus. Utilities added included new

watermain service leads for domestic and fire protection, new sanitary sewer leads and new stormwater leads. Site stormwater management required meeting City of Grand Rapids standards for runoff quality and quantity. Moore & Bruggink's long-term, close working relationship with the City facilitated and expedited these service connections. A critical element of these building rehabilitation projects was working with existing grades to properly establish site drainage, entrances, parking lots and neighboring property interfaces. Especially challenging was the significant grade change behind the Franklin School property. With attention to detail, these site engineering challenges were met and both of these school rehab projects were successfully completed to provide updated facilities to the Grand Rapids Public School system.
