Mr. Wayne Harrell, P.E., Director of Engineering
Kent County Road Commission
(616) 242-6914

Location of Project: Village of Sparta, Kent County

Date Started/Completed: 8/2/04-10/28/04

Dollar Value: Project Construction Cost \$755,000

Project Team:

Gary C. Voogt, P.E., Principal in Charge

Timothy J. Hoffert, Project Manager

Dick Kraft, Inspector/Documentation

Project Description: The project consisted of complete replacement of the existing sanitary sewer, complete reconstruction of one-quarter mile of roadway, and milling and resurfacing of one-half mile of roadway. Traffic control was a major design factor since Division Street is one of the busiest streets in Sparta. Through traffic was detoured while local traffic had to be maintained at all times to businesses and residences since there are several neighborhoods that can only be accessed from Division Street. The project was jointly funded by the Village of Sparta and the Kent County Road Commission. Design and construction of the project involved extensive coordination between the Village and the County.
