Project Description:

Design Engineering and Construction Engineering for a non-motorized trail along 3 Mile Road and East Beltline Avenue in Grand Rapids Township, Kent County, Michigan. The HMA trail is 1.2 miles long, 10' wide, and required construction 2,200 square feet of modular block retaining walls in three separate locations. The project required acquisition in addition to local funds, the project included funding from a Transportation Alternatives Program (TAP) grant through MDOT as well as private funding from Spectrum Health. The project was designed, bid, and constructed through the MDOT LAP process. The project involved coordination between Grand Rapids Township and the Kent County Road Commission, which served as the Act 51 grant eligible agency. Construction permits from the Kent County Drain Commissioner and MDOT were required for this project.
